**Exterior Shield Validation Status**

The Exterior Shield vendors and their third party auditors have asserted that the Exterior/Shield vendors' products listed below are compliant with all the requirements in the Exterior Shield form. Please check with the terminal vendor who develops the terminal software for the card reader and the EPP that the E2EE terminal software also meets the functional requirements for the markets the exterior/shield is to be deployed in.

### Exterior Shield Validation Status

The Exterior Shield vendors and their third party auditors have asserted that the Exterior/Shield vendors' products listed below are compliant with all the requirements in the Exterior Shield form.  
Please check with the terminal vendor who develops the terminal software for the card reader and the EPP that the E2EE terminal software also meets the functional requirements for the markets the exterior/shield is to be deployed in.

| Company information   | Exterior/Shield Information   |               |         | PIN         | Card reader(s) | EPP    |                 | Component Case-ID    | HOST information  | PNC SAC Review Details |            |  | Case ID     |
|-----------------------|---|---------------|---------|-------------|----------------|--------|-----------------|----------------------|---|------------------------|------------|--|-------------|
| Company Name          | Picture   | Model         | Version | PIN Support | Model          | Model  | PCI PTS version | PNC Case-ID (List 3) | HOST or HOSTs used for the product  | Date                   | Markets    | Comment  | PNC Case-ID |
